

GRANDE LAKES ORLANDO

12 November 2008

James & Alicia Vargas
JV Installations
1310 West Central Blvd.
Orlando, Florida 32805

Dear James & Alicia,

I wanted to take a moment to thank you for the great partnership we have with JV Installations. The projects we have worked on together have been absolutely seamless. The HD television project that we did with you was a 3.9 million dollar property project that we did together from the very first day to the last, the crews that you sent out are some of the most professional I have worked with in the thirty six years I have been doing project management. We commend you on your Company work ethics and most of all your diligence to complete on schedule.

On another note, anything we have contracted to JV Installations would be hard for your competitors to match, we constantly have received positive comments on what we have accomplished in the past five years regarding modifications you have been part of and again, thank you as you have helped us in many ways to keep Grande Lakes looking first class.

We are looking forward to the coming year and our continued partnership.

Sincerely,

Ed Malinas
